The Regional agency of Molise job is an instrumental body of the Regione Molise, endowed with legal personality under public law, with patrimonial and accounting autonomy, which deals with providing technical support to the planning and management of the entire regional system for the employment and the activity of developing quality standards and criteria for accreditation, certification and verification of training credits. These activities must be linked to those carried out by the State. Moreover, the regional agency of Molise job provides for the monitoring, supervision and control of the entire regional employment system through a regional information system, connected with the National Employment Information System and the connection with national bodies and the European Union itself. According to Law 10 of 26 June 2006, the Regional Agency of Molise job was assigned the following additional tasks: interventions for disabled or otherwise disadvantaged people; organization, monitoring and possible direct management of interventions related to the education and vocational training chain and lifelong learning; work experience and actions to combat unemployment; training of vocational training operators; vocational information and guidance; connection with the national network of agencies; regional coordination of the EURES network (European Employment Services) established on the basis of Regulation (EEC) n. 1612/1988 on the free movement of workers within the European Economic Area; any other intervention of particular importance for training, employment and social.
