UNIVERSAL CIVIL SERVICE

DESCRIPTION

The Civil Service is the voluntary choice to dedicate a few months of one's life to the defense service, unarmed and non-violent, of the homeland, to education, to peace among the peoples and to the promotion of the founding values of the Italian Republic through actions for the community and for the territory. The Universal Civil Service represents an important opportunity for learning and personal and professional growth of young people, who are an indispensable resource for the Country's cultural, social and economic progress. According to the law, all those who are involved in the activities provided by the Universal Civil Service can earn the so-called credits, that are recognized by the educational and professional training system. The credits obtained for the activities carried out during the Universal Civil Service, important for one's educational background, can be recognized by the universities too. To the volunteers is given a monthly reimbursement of € 444.30 (to which, for those involved in projects abroad, an extra compensation is added, different depending on the "country cost" criterion where the volunteers are involved). The activity carried out does not lead to the establishment of an employment relationship and does not imply suspension and removal from the employment or mobility lists. The Universal Civil Service has a flexible duration from 8 to 12 months, depending on the project. A schedules of activities is established in relation to the project and provides for a weekly commitment of not less than 25 hours or a total of 1145 hours for 12 months.
